Club Grubbery - Raw transcript of interview:

2025-06-16 Graham and John speak with Jacquie Dundee and Jody Lowe...

Good day everyone. Monday the 16th of June Club. Grubby time. Good day, Johnny.

Good day, Woodie. How are you?

Oh, a bit so bad when I look at that backdrop, mate. It's, um, it's tragic, isn't it?

Yeah, shocking. Absolutely, absolutely tragic.

But listen, mate, uh, before we go to our guest, Jody Low and Jackie Dundee, uh, you've got a real scoop for us coming up on Wednesday night late, which will probably go out Thursday night on Club grubby.

Tell us all about it, John.

Yeah, mate. We, uh, we're gonna be interviewing Dr. Astrid, uh, Berger, uh, who, who I've just spoken to at length on a Zoom, uh, with, uh, a CA. Uh, this, this is a massive, uh, interview hoodie. Uh, she's a, a professor, she's a public health expert. She's been given awards by, uh, the, um, United Nations Secretary General.

Uh, she, uh, she's been involved with programs with the WHO and World Bank, et cetera. Now, what she just revealed to us in relation to the pandemic treaties, the ihr and what's going on within that WHO will, will blow people's minds in relation to this. Bill Gates and all these other people. It is frightening, frightening stuff, uh, and people must, uh, tune into this so that they can, uh, find out exactly, uh, where we stand in relation to all this, uh, nonsense.

And she, she's, uh, a world renowned, uh, expert. Uh, and, uh. You know, she's, she's got some stories to tell and, and, uh, she's also championing for the, uh, release of, uh, rhino Film Mix. We'll, uh, we'll touch base with her on that as well. Uh, he signed some declarations, uh, uh, that, that she was telling me about. So, uh, that'll be a great insight for, uh, for everyone on Wednesday.

Yeah, that's fantastic. Well, as, as always, we just want to try and open the eyes of those people who are still sleeping at home and just keep pumping out as much information as we can, because we have to increase the numbers of people who are waking up.

Mm.

And that's been our, our purpose all along on Club grubby.

So that's great news, John. Um, Jody Mo and Jackie Dundee. Now Jody, we've got you on because you're going for a bit of a drive. You're going from Cairns to Canberra and, um, uh, sadly a lot of people aren't hearing about this, and a lot of people dunno much about it. So we've got you on tonight to explain. I.

Um, tell us all about that journey and what it's about and, and where you're heading and when. And we've also got Jackie on because you're gonna be, Jody, you're gonna be supporting Jackie Dundee in her, uh, in, in the, uh, in the issuance of documents. So we want to talk about that. So, uh, Jackie, we might ask you first tell us, tell us about the documents that will be traveling, I believe with Jody and the convoy.

Well, look, I'm absolutely stoked. Um, I, I couldn't believe it that, you know, when I heard Jody was arranging a convoy to Canberra, 'cause as you said, we have got to wake people up. So the document that I have prepared is a solemn league and Covenant, and it is based on those that have gone down in history as founding documents in law.

Mm-hmm. So the covenant is a. We are with this covenant. I've strengthened it. I did a lot of research into the meaning of words, the etymology of words, and where we can, you know, lawfully use this and that. So the people of the people of the commonwealth together, uh, sovereign, we are the sovereigns of this nation and we are the beneficiaries by inherent, right?

We are the supreme ultimate authority. Nothing surpasses us other than God, of course. Mm-hmm. So. What we've done is we've got so much, uh, going on in this country and we've got to do something about it. So this is a decree. So we, the people by decree, are declaring making our declarations of reclaiming our commonwealth because the government, as the administrators, agents, servants, and trustees of the Commonwealth have basically sabotaging our nation.

And something has got to be done, including treating with, uh, private, uh, organizations, you know, and in particular the, you know, the who that, uh, bill Gates owns now treaties can only be entered into between two or more independent nations. So that's something we are looking for plaintiffs for a case. To, uh, knock this out, to knock the treaties out and to remove the sections in the biosecurity act that are referring to the WHO recommendations, which you'll find at, uh, section 4 7 8 4 7 9 of the Biosecurity Act.

But this, uh, this solemn league and Covenant by the people is basically just outlining what we are doing. It is peaceful and it is lawful. So this is something that I cannot stress enough, and I was speaking to Jody about it, the, you know, the other day as well. When you start looking into the law and what they have actually put in place, you will find that there is a Western Australia Act where they have indemnified foreign military on our soil from, um, causing harm or killing us.

They are indemnified. And if you go to the Criminal Code Act, which is a federal act, you'll find at section 71, the entire section, uh, pertains to any harm or anxiety or stress or death that occurs to un here on our soil. So what have they got planned? This is the thing. You've gotta have a look at what they're putting into legislation.

So it is absolutely imperative that everything is done peacefully and lawfully because they would love nothing more than for people to be in the streets with pitchforks. And that's when they will unleash the forces and we are done. So the Solemn League and Covenant is a lawful instrument to reclaim our country.

It is us as the, as the, uh, ultimate authority of this nation, the people of the commonwealth reclaiming. Our commonwealth because it is just being, the wealth is being siphoned. It's absolutely outrageous. It is clearly evident. You know, where the Australian government's allegiances lie when they are giving all of our resources away for nothing to these multinational corporations that are tax exempt and they are, have, the profits are in the trillions that they're making from our country.

And then you look at Australians, we are struggling to keep a roof over our heads. Uh, one in six Australians are now in poverty. They are attacking our farmers. Uh, half of a third of Australia's owned by China. And like the list goes on and on, this climate change bullshit. Shutting down all of our coal power stations when we contribute something like, uh, I don't know, 0.01 to the actual, you know, at atmosphere pollution to the atmosphere.

Yet China and India combined are probably 80%, and China's building two coal power stations a week and buying our goal to do it, like it's, everything is just like an oxymoron. It's absolutely crazy what is going on. So we've gotta keep our heads together, stay united. Um, you know, and then they're bringing in all the immigrants here as well, which is putting us in danger.

We've got all kinds of machete attacks. But I would, you know, I'd also like to say that you know what they do when, when we are onto something, and this is the thing, the people are rising, we must remain peaceful. They try to divide us either with religion or with race or culture. So the people that have, have come into this country, it's not their fault.

It's the government. They brought them in here, but the something does need to be done. We need to stop immigration. They're welcome to sign the covenant. And I would suggest anyone that's, you know, fairly new to

the country, I dunno, it'll be up to the people to decide, you know, if you've only been here one or two years, you do need to, uh, swear, uh, an oath of, or bear an oath, I should say, sorry.

Bear your oath of true allegiance to this nation. And if you commit any crimes, heinous crimes, crimes of violence, et cetera, you are shipped straight back to where you come from, you and your family. So, you know, this is the thing. We don't have harsh enough penalties here. We're laughed at. They're running around with machetes.

So, you know, this, this

is, this is a classic. Um, this is a classic communist Marxist playbook because the whole, the whole thing has been revealed by KGB whistleblower since 1960. Yes. Take about 15 to 30 years to destabilize a country. First you demoralize it, then you destabilize it. You do that through, uh, the media and through university.

And then you normalize that behavior, which is what has happened with woke, which is what has happened to divide this country. And we are in the grip of a labor government, which is Marxist Communist. There's no doubt about that. Anthony Albanese is a 42 year card carrying member of the Communist Party.

Yep. CCP, it goes right through. So this is classic takeover playbook by the communist. And we're seeing that happen right now and, and already today. Richard Miles, the, uh, defense minister, uh, was questioned on the seven 30 report tonight because the orca deal with America looks like it's in doubt. So how many billions of dollars are gonna be wasted on that?

And what are we gonna have in the way of defense? It's just absolute bs. So, so Jackie, um, the, how, how, first of all, before we go any further about, about the covenant. How's Dr. Beverly going?

We need help for Dr. Beverly. Uh, her, uh, give, send, go has barely moved. I cannot stress enough to Australians the significance of Dr.

Beverly's case. So, um, I've actually, uh, done a letter because I thought, 'cause Jodi, like, I'm so thankful and grateful to what Jody has done arranging this covenant, you know, the signing of the covenant while they traveled to Canberra. Et cetera. So I thought, well, while we're, I'm gonna do my best to get up there as well.

I'm planning on it. Uh, while we're up there, let's make it worthwhile. Must be peaceful and it must be very respectful. But we need to be at the front of the high court. And I've composed something that is like a notice to the high court, and it is as Jodi's going and the people are coming up as well, Jodi's gonna get, um, signatures that, uh, you know, say that they've signed the covenant, but, and they also want the high court to address matters that are of profound constitutional significance that are more than just interest.

They are of absolute, enormous interest to every single Australian. Can we be forced into having a vaccine by state acts? No, we can't. This is the thing. Going in and outta the courts. The way these ladies are doing it is an ongoing battle, and I'm telling you, we've got them in a corner. We've got them in a corner.

They do not know which way to turn. We're in the middle of doing a, uh, section 75 5, where we are gonna put a, um. Uh, writ of, uh, prohibition manda, stopping the federal court case going ahead and saying to the high court, what on earth is the purpose? See, this is the thing you get just absolutely sha on.

All through the state courts are so corrupt. They are rife with corruption bias perverting the course of justice. There is no justice. We've got no faith in the judicial system. These matters must be heard in the high court. There is absolutely no escaping the fact that every single health act in every state and territory was operating.

So its its effect on the people was as a state industrial law, it entered into the workplace, put conditions and regulations into the workplace. That is the definition of a state industrial law that is prohibited, excluded from operation at section 26 of the Federal Fair Work Act. It is a very, very clear cut case.

But then you've got the, uh, additional challenge that Dr. Beverly is putting in there asking. So if state acts cannot circumvent the constitution and federal law can corporation policy, and the answer is absolutely no. And that is pursuant to clause five of the constitution that any act of parliament must be adhered to by all the courts, judges, et cetera.

So the, uh, fair Work Act is an act of Parliament, capital P, Commonwealth Parliament. It must be adhered to see this will, this has got long, uh, a long reach and, uh, the ramifications when she wins. 'cause she can't not win. They seriously dunno what to do. We've just got to get it back into the high court.

And I'm hoping, you know, with Jodi's help and all the signatures he's gonna collect, et cetera, you know, they've got their name and the state they're from to say Uhuh, this doesn't, isn't just for Victoria, this has gotta be wiped out across the country. Every state act in the country, circumvented was, uh, uh, direct and indirectly inconsistent with the Federal Fair Work Act 2009.

So every,

how much, how much money are you looking for to get this through to the high court?

Well, look, this is the thing. She has already got $60,000 of costs against her. $22,000 has been raised. And it just blows my mind with how many people, if everyone just put in, you know, 10 bucks because this is a thing, this is what they rely on, is nobody being able to proceed any further through any appellate rights or anything else because they've just, they've wiped them out financially.

We have got to keep going with this. We must, we must support Dr. Beverly. And that's why Jody actually, um, reached out to me 'cause he wanted to help, you know, Dr. Beverly. So I really am, I'm so very grateful.

Well, let's get the, uh, let's get that link again and we'll put it out again.

Oh yeah, that'd be great.

I'll, I'll, I'll start the ball off. I'll contribute as well. So, um, that's really good stuff. So, as far as signatures are concerned, is it just a matter of people turning up to the convoy and signing the document? Jody?

You are muted, mate.

Oh, you're muted.

Yeah, I got it. Um, yeah, so, um, the Covenant document is actually on online, right? Because we need that one. We need that to be signed a million times, and that's a, that's a living man and woman sort of document to be read. Um, understood to the best if we can because it's, it's written in a, it's written in a language that's long, long since, um, lost to us for education.

But it's, it's the, um, it's the intent of what it, what it means that we need to, um, show. Um, so that's a, that's a living man and woman document to sign that with two signatures, right? So, um, Jackie's page has all of the details. Um, just explain to someone like me, like a 5-year-old, so that I can, uh, I can download it, I can sign it, I can read it, I can sign it, and then I can, um, upload it back to the, the central point for it.

Um, what we're gonna do, because, because people, particularly in the, in the rally. Along the way, they really, they really wanna sign something on the, on the go. So we're gonna obviously take a, a, a, a ton of the, um, uh, covenant paperworks, uh, there. And we're gonna try and explain to people on the, on the, on the road what they, what it is and what it's for.

But, um, Jackie's high court cases is, is paramount to everybody because whether people believe in the constitution or not, they, they do believe that we have to win a, win a case in the high court, um, to, to get this COVID shit behind us. Um, and, and so the, the, uh, and, and again, there's still, you know, people are concerned about, um, the covenant, um, you know, putting names together and that sort of stuff.

Look, um, so on the road we'll also have a letter, um, that we, the people are demanding that this high court starts to, uh, starts to take the, um, things that are being brought forward seriously and do its job. Um, and so Jackie's provided us with a list of things where they have. Being sidestepping their obligation of, of actually treating it seriously when we the people bring these matters to them.

Um, and I think that's, that's the main thing with, with actually having a, a live living sort of a document, uh, growing in signatures as we go along, um, down there. But, um, we reached out to, uh, every, I did what I always did, which was I, um, my original intent was, um, I said, I want this to be organically grown, um, as well.

The word that you used today, uh, Woody was a, um, a relay, which was probably a better word than, um, parade. But, um, let's be honest, uh, CCR probably just doesn't hit it home as well as CCP. Um, so we'll stick with parade. Um, and, um, and so I, um, great acronym it, it's the, the relay part of it is so that every single person can take place.

So I've said 10 K, a hundred KA. Whatever you can afford, whatever you can do to, to pass it along. And what I, I asked if we could have organic growth amongst all of the, um, the freedom groups that, um, really need, uh, the people really need to be, to move, to feel like they're doing something. We've got all these big things happening in the background and we're, and there's so much sit and watch and the one thing that's been lost as we've all, you know, trn each other, the pieces over the years, the one thing we've lost in the freedom movement is the move part.

And so I've been teasing the movement for a lot while now saying it's a mint because we haven't moved for a couple of years because every time we do, we end up, you know, um, ripping into each other. Um, he said, she said stuff, and me and you had a good, really good conversation about that, um, that stuff this morning and, um, as, as we, as we needed to move past it, and here we are because it's got nothing to do with me.

It's got nothing to do with John or nothing to do with Graham. We are try, I'm, I'm always trying to present to the people. Who are really what we've got. Um, in, in the days of my unionism, when I was just a young fellow, um, I used to lock arms and have multiple times locked arms with men, uh, and women, but mostly men back in the day.

And it made no difference to me whether they were Christian on that side or aboriginal on that side. We linked arms that bloody hard and locked our hands in that bloody tight. And we never were violent because we stood our ground for, for our rights as international companies came, came in to try and break them down and take the, take away what, what people had fought for over the years.

We never threw punch, you know, we were never violent, right. We were always stationary and the police were the ones that came arm barring and breaking fingers and, you know, pulling us apart. But the strength that we had was side by, by side together, not in a single line with, with a, you know, with a single point of a single person saying, I do this or do that.

Right? And so that's why we agreed today. We can't have a movement that, um, has too many people at the top pulling the rubbers because the real power, as it always has been, is the people. And if the people actually ever realize the power that they've got, boy, oh boy, these, these people are in trouble. Um, because that's what Jackie's paperwork and that's what my knowledge recently has been aimed at learning the power that I've long not known was even there to say to these to, to these politicians.

Uh, uh, 120 fifth year anniversary of the signing of our constitution. This is our last real dig at it. I, I'm a, I'm a main, I'm a, um, uh, a compliance type person with the roles that I have. You have preventative and you have

mitigating strategies. We have, we are in the last rows of preventing our country from being completely lost and spiraling.

Without that, without that document, um. Holding us together because we can have a million people that have more knowledge than, you know, a lot of knowledge beyond that, which is the, you know, the, the backstory to our constitution. That's fine. There's a lot of people out there with knowledge and, um, Malcolm Roberts gave me a big touch up the other day on text saying that, you know, all of these internet constitution experts, and I'm like, I don't care, Malcolm.

I said, if I, if I've, if we've grown from 2.7 million people disgruntled with the system to 4 million people not taking part in their Democratic Right. Because they don't have any faith in it. Whatever you are doing in there isn't working. No. If you have read, if you have read the communist type Marxist regimes, the books, you'll know that that is a very good part of proving the destabilization they're looking for, for having people give up on that.

Right. And like Jackie said. A couple of things that come from that. And one of them will be civil war and civil unrest. And we do not want that.

No. We must steer clear

and we do not need that. Right. But this is me putting my, putting my, any force that I've got in this movement with a voice, putting it behind what I see is the last couple of efforts that really sticking it to the high court to say, do your job, or shit's gonna get wild in this country.

Um, because we're about to lose it to what, like you said, Albanese, CCC backed, um, you know, and, and even just raising awareness about the Search foundation. The Search Foundation is the Communist Party of Australia since it's 1983. And it heavily, it, it was the full backup for everything that was the voice and the Thomas Mayo Mayo sort of division of this country.

There's been more racism against the indigenous, um, you know, since, since that movement than, than than ever before. Because they do a really good job of giving the microphone to the furthest of the left and the furthest of the right, pretending that we don't exist in the middle. Um, and so, so that's all I wanted.

I, I wanted, uh, 67 cars. Um, in continuous convoy from Cairns to Canberra. Um, I'm not a big fan of Canberra. I'd prefer to just go straight past and go to Melbourne, if I'm honest. Um, a lot of people wanna live epic. I just wanna turn me back on the, on the, on the political mess that that place is. Um, it has, you know, I, um, I'd prefer to turn and feel those big, um, those great big windmills around, um, you know, maybe poop in a paper bag and burn it and run in front of one of those great big white windmills that they've got all up there.

Now, arrange and send that smelter, um, back to Canberra for a change because nothing but good stink is coming outta that place at the moment. And, um, collectively, I, I think we've gotta, I think we've gotta make, uh, the opportunity known that we, we voted, I wasn't a fan, um, because we did not a lot as a country leading up to the vote.

Um, we wake up a month before it and it's ev evident by the spike I got in, you know, in my political viewership, monstrous amounts of effort, you know, views, we voted. We lost. We have a month where everybody whinges and bitches that their month of effort that they put in as a voter did nothing. And then we start seeing it taper off again.

So that's why I went, let's go. That's what all I wanted to say was let's go now before they go back to sleep for their, for their 33 months sleep. Um, you know, 125 years it's been liberal labor in charge.

Yep. Uh,

we have to stop it. We cannot wait another three years. We know the agenda of the 2030. We understand the UN Disaster Risk Reduction Plan.

Sendai framework. Uh, we understand the World Health Organization Pandemic Prepared Australia and the International Health Regulation that changes in July. Um, we understand the World Economic Forum has been working happily, happily in the background to see that slow feed of communism just drip its way into you will own nothing and you'll be happy.

And so I said let's go, because Tim, Tim was calling for, you know, unity. People have been calling for Unity. And I believe that Unity starts with you. I spend most of my time, you know. Dealing with the things that I can do to remove myself from coer, from the system, it is much more important. I spend a lot of time in the background teaching trauma and emotional, um, release to make sure that they operate.

People can operate on an energy that isn't fear or anger. Both are fleeting and both need to be replenished quickly by watching more fear-based information. And basically we end up, you know, paralyzed. Um, so I think hugs and handshakes are always good sometimes on these things. And I know people haven't got money.

I don't, I've been jobless for six weeks. It's tough at the moment out here. Um, but I'll do the, I'll do the drive up to Townsville to make sure that it kicks off, um, accordingly. And I hope that, um, the Queenslanders that have had enough of this government, um, you know, that wanna show, wanna show, uh, the commitment to say drive 10 k, a hundred k, a thousand k, but come have some hugs and, and handshakes with us.

And as we talk today, Graham, the freedom movement. Freedom Movement has got so much negative energy tied to it from the, from the PA five past five years, and as a massive swath of new Australians wake up to the fact that we were right and we never wanted to be because John LA's background should never have been what we wanted to see.

We knew what was ha what was coming, and we hoped that we were wrong and we weren't. But now the Freedom Movement probably needs rebranding. Because the, the infighting has to go away. The remedy it the truth

movement, Jody, it's the truth movement that's sort of started out as

Yeah, I, I know, but I I, I'm not a labeler.

I hate labels. Right. The, the government does labels. They do conspiracy theory. They do anti-vaxxer. They do, they do, you know, um, now I'm a domestic terrorist because I'm talking about constitution and common law. They, they, you know, they, they do a, a transfer. They reverse it. They flip

it around. I know, but that's what I'm, I just,

I just want people to, I just want people to realize that, um, uh, there, there are some, there are some really hardworking people that have a lot of knowledge about this stuff out there working.

And, and, um, will it, will it be the end of the day? Like, is it gonna be a gda tid bolts, you know, UCC that knocks everybody out in one? No, there's no such thing. There is no silver bullet. Right. Um, only col only collective, um, knowledge, um, acceptance of the power that we have, and then standing collectively in action.

You know, is, is the sort of pathway to, to what I, what I've seen

and there's no, there's no quick fixes. I mean, the communists have taken 30, 30 plus years to set this up, and it's gonna take us that long to get it all back, uh, to where we need it. Johnny Lader.

Jody, uh, it is probably important that people understand what, what this is, uh, what the actual details are, what, what date it is, where it's starting from, what you want people to, to actually do.

Do you want them to actually get in their cars or do you want 'em to stand in the towns that you're going through and wave a banner and put $5 in a bucket for Beverly, or,

yeah, so there's, there's a, um, there's a lot, but a little, um, clear, sharp information on the, um, freedom Unite Cans Canberra Parade site.

There's six, I think six posts on there. Um, there's a short one of about six minutes. It sort of roughly just says what we just said then. Um, that was probably longer than six minutes, but, um, uh, the. Um, the document is there with a post explaining why we're trying to do that. The, uh, a donation, um, a donation bin and bucket for every site individually run by the person who's, um, looking after the lunch location or looking after the overnight location so that we can raise as much money for p for Travelers to not have to, um, uh, pay for their food and their, and their camping.

Um, and we've got a one for fuel vouchers for people who've got the time and the carbon are struggling for the fuel. So we've, we've got that plenty of buckets going towards that. We've got the main one, which is Jackie, um, Jackie's highlighting up the top. And so obviously on the way down we'll be looking to, um, have, have a, have codes and scan codes or ways for people to donate to that.

The whole point of this is to raise awareness to the high court case. Um, I had a few conversations today that, uh, immediately were like, oh my God, you know, we need that to be sorted because me

too.

You know, we, we don't want to, if the government's not gonna have a, a Royal Commission into it to, and pretend they did everything perfectly, um, then we investigate themselves.

Oh, that's what I'm saying. We need, we, the people need to be the one that, that drive that to the high courts to say, you will recognize our constitution and you will recognize the failure of it. Because if this World Health Organization gets its way, and it can and will now with the pandemic preparedness Treaty one, and not if we get

this case in

Jody.

I understand. That's what I'm saying. If they get their way, we've done, we've done nothing to be in any different position than what we were when the COVID thing came through. Except a lot more people will be resistant because they now know that we, you know, we were right. Um, and unfortunately they're wrong.

The level of depth, the depth of which we were right. Um, you know, unfortunately is a lot deeper in what John just said about the person that they're having on. Um, you know, we'll, we'll start to really show that. But this is why I want Remedy. Right. This is why we have to have Remedy, because we can't, if there's a million people wake up tomorrow and watch John's, John and your show on Wednesday and here.

The depth of trouble they're in, being the vaccinated, and we don't be able, we can't actually back that up with, Hey, it's okay, you're not gonna die. Then they're gonna shove their head even further into the sand and turn, turn this all off. Because they can't handle listening to someone say they, not only did they make a mistake, that's, that's painful for 'em to know that they've taken part in vaccinating their families and their children.

They

were deceive, you know, they were deceive. They would,

they, they would deceive, which means that the stability of everything that they believe in, in their democratic society is, is troublesome. Um, you know, they were, um, the unions, um, you know, the unions let 'em down. Uh, they, the unions turned their back on on so many people.

I mean, I, I stood proud with so many strong men, you know, outside of a military uniform. Some of the strongest men in the country I ever worked with was underground coal mining on, you know, on a three o'clock in the morning on a Saturday morning when you mate through out party and we're underground, you know, 500 meters underground, 20 Ks in, you know, digging coal out so that we can keep the lights on and keep the steel strong.

Um. And, uh, you know,

and,

and those guys now basically, you know, meet on, meet, meet one Saturday a month to talk about the time when their BA dad had balls. Um, you know, they, they've been weakened and washed out. And, and why? Because again, we're we, the workers, we, the people on the floor are always discharging our obligation of power to someone above us who ends up in, ends up in rooms in Brisbane, doing deals with people behind the scenes.

And then it comes back down to us as a people and we have to accept what's been done. And that's why I say, they say the union hasn't got any power anymore because the legislation says so the only power the union ever had was the number of people that had, yes.

Alright. So no,

no paperwork. When, when, when they stood on the Eureka Stock Aid and that there was no paperwork that said they, they could, could or they couldn't stand together.

It, the natural law didn't come into existence 'cause we wrote it down in the 1215 Magna Carta and nor did our, an alienable right to our land when we wrote it down in 1900 for the, for the Constitution. The people are always and always will be the power, but only if they willing to stand in it.

Yes. I don't wanna run out of time on you guys.

So we've got a couple of questions we need to ask you, Jody. What, uh, when you get to Canberra, what's the story? What happens then? There's no

real end point to it because the cam, there's not, they're not sitting or anything. It was, it was a, it was a basically a, um. Uh, a thing that most people sort of said they wanted to go back to Canberra, and I think it's a, a bit of an epic relive.

Um, I've, I've, uh, said, okay. Um, it, they want to go back and sort of meet up again. That's the central point to sort of fill out the meeting. Um, it is on the ninth, three days later. Um, the intent was originally the ninth is the hundred 25th anniversary of the signing. Um, so there, there was a team from South Australia coming over to do some stuff with that.

Not sure what they were doing, but they were basically the catalyst to say what he is doing. And I'm like, well, we, we can meet you down there, but look, let's, let's be realistic. We want numbers, we want weekends. Um, so let's do, um, let's break the two and a half. So on the 26th, um, 26th of June, Thursday night, I'll travel up with, um, some people up to Townsville.

Cairns will travel. Cairns in the north, will travel down, and we're gonna meet there, um, at the Bluewater caravan park. It's all in that group. Um, have a have a catch up, have a talk. Next morning, um, 67 cars, trucks,

truck, buses, um, is the whole goal. Um, that's the nu that's the percentage of people in this country that didn't vote for the Communist Labor Party.

Um, whether you agree voting or not

gonna ask you why 67? Yep. 67.

Um, it also, it also leaves a nice 33, which is a representative of who else they work for in those, in those political spaces. Um, and, uh, so that, that's, that's all that is. It's not a, it's not a have to must do or whatever. It's just a, that's what we're going for, aiming for.

And like I said, at the moment I've got, I've got 67 cars registered as of now, but they are all spattered between 500 Ks, a thousand Ks, a hundred Ks, you know, so now it's just filling in the gaps, um, and making sure that the green lines on my spreadsheet, I've got a spreadsheet with all the, um, the names over, hidden over here, but the names of the cars, because we're making it like a proper rally, all of the people's names of their cars are always, um, going down on the side there.

Um, so, um. That's what I'm trying to do now. Now I'm just trying to fill in the, fill in the green to make sure that we can have continuous cars all the way down. Um, and so there's plenty of people that haven't said that, haven't got the time or haven't been able to, so they're meeting at towns, they've already got getting flyers.

Um, they've been sending flyers out about Jackie's stuff. I'll give them some more information and more PDFs and stuff. We'll be taking that document with them. For example, the, the run from, uh, Townsville to, um, Mackay. Uh, I would, I would say at the start of the, of the day's rally number yourself. 1, 2, 3. 1, 2, 3.

Beautiful. All the ones. Can you please stop in at air? Have a PP break, grab a coffee and hand out a heap of paperwork. The 40 Go forward. Bowen. Number twos, can you please stop in at Bowen and just veer off the side of the road? And then do the same. Give out some paperwork, pin some notices up on the board, see if you can get anybody interested.

Just show, show the cars. And the same for, opine for number three. And then we meet back up in Serena for a two hour lunch break that gives people traveling and stopping and, you know, having conversations time, um, as they ebb and flow and the traffic. Um, and then, yeah, and then we'll go down to Rockhampton for the first night.

Um, I'll have Zach from Zach and the, um, Zach Kelly and the, um, and the truth. He's gonna, he's gonna come to the little pub at the caves there and he is gonna play for us. We have some food stay overnight. Um, and then most likely, um, some of the people from the north will turn around and head off and go back home and we'll pick up a new contingent from Rocky in the, in the relay side of it.

And then we'll travel down, do the same thing through Jin J down to Gympie. And then, and we really see some bolstering of numbers come from Gympie to Newcastle. Obviously it's a lot easier there. So it's really the northern, the northern thing if I don't get it going from the get go. You know, people will be watching and they'll be like, well, you know, oh, you know, and then there's a gap.

When we finish at Toowoomba, we finish at Laley Showgrounds, um, on the night of the, on the Saturday night. Friday night is the 27th. Saturday night's the 28th, we finish at the Laley showgrounds, it's outside of Toowoomba. Um, we get up in the morning, have a, have a bit of breakfast. Um, and all I've asked was, can the groups, all of these different groups that are out there, there's so many different groups, um, treat it like a rally and can they, can they work within their group to fund a car or two, uh, with the group connections that they've got to say, for example, um, like I said, today, heroes putting two cars forwards for the, for the freedom of this country.

And, you know, car one and car two, we're gonna make sure that those cars are seated, someone's driving it, someone's in there for safety with them, and, and someone's got some fuel in the tank all the way down and we'll, we'll, we'll do our bit to do it. And, and I offered, what I offered was, and I've had plenty of response.

Is it each stopping location, people from all of the different groups with all the different remedies, uh, are pulling up there with their tents and that sort of stuff and saying, this is what we're working on. This is what we believe in. This is just, this is my, I call it the Goldilocks method. You know, some, some of these, um, you know, some of the public private members associations, some of the trust, you know, trust, um, private trust to get yourself into a safer ground to fight these guys.

Some of the constitutional groups, some of the common law groups, some of the sheriff groups, right? They're all, they're already invested. Um, and they're gonna be sitting there giving out information and flyers as well as just, um, information in general. So we don't just want more, we've had five years of telling everybody that they're all corrupt and it's all bad.

And you know, the deeper you go, the, the uglier it gets. But we also, we also wanna say, we're gonna sign this paperwork for Jackie. We're gonna try and get this thing through the high court. We're gonna put everybody in that government on notice by some on the, on the ninth. We're gonna send every single one of those people that could supposedly sit, um, in treason an option to say, here's your chance to get out of it right now, back out peacefully.

Otherwise, you know, you know what's next. We know that this is what's wrong, and here it is, here's the documentation. And then, and then we'll have the, um, the other ones signed as we go, raising awareness and funds if we can for, for the, for the wonderful doctors that are doing what they're doing. Mm-hmm.

Um, that's my, that's my and extent with Jackie. I just saw those, those doctors and I'm like, man, no man. They are out there self representing, working their ass off at the age that they are like yourself. What we were talking about today, working their ass off to for something. You know, there's a certain person.

Well, there's a certain person out in the movement that just went out and said, oh, I'll do this if you gimme some money. And over a hundred thousand dollars was raised and nothing has happened. And I'm thinking, goodness me, we can't even get 60,000 pe $60,000 raised for someone who's in standing in the court, like in the high court.

Right?

So look, we'll, we'll give that a real hard hit. Um, please, please. You're gonna, there's already one hoodies group I think forming in Armadale. Um, and the, the hoodies contingent in Opine and Mackay, they're, they're huge. And I know that they're really fired up about everything. So, mate, they, I'm sure you're gonna get a lot of support from them.

And I want to urge anybody in hoodies, heroes who wants to partake in this, when you're talking about a rally, it's like a birds will bash only with a purpose, a real purpose, isn't it? So, you know, get out there and support it wherever you can get in and behind Dr. Beverly and support that that gives send go.

We'll make sure the links are there. We'll have the link to, um, to the, uh, the parade in there as well. Um, uh, or we call, I call it the relay, but, uh, I won't confuse it. We'll have the links in there and, um, and let's get out there and, and do the best we can. Look, we're at a stage where, if any, we're all in the same battle.

If anyone's prepared to go and have a go at something, we should not stand in each other's way. So, uh, we had a couple of hiccups through the week about that, which was in, uh, inadvertent and it's now been resolved. So that's, that's a really good outcome.

Everything's been checked. Just to reassure you, I've sent this document out to all of the constitutional experts in the country.

Everything is absolutely accurate in.

Uh, common wheel, WEAL. Actually a lot of

people are thrown Graham and John because Oh,

I know it wheel

with A-W-E-A-L and I'm being given it sent to me saying, it's Jackie doesn't know how to spell. And I'm like, look it up. Look it up.

It actually stands for the prosperity and the wellbeing of the people of the country.

That's what common wheel is. We lose a lot of our vocabulary. So I specifically put that in there because of what it, uh, represents. But listen, I would love to have a word with Malcolm Roberts. I did a Zoom with him and his, uh, constitutional barrister. Yeah. Who was retrenched shortly afterwards by the government.

I've got an email from his, uh, his ex constitutional barrister saying, yeah, Jack, you were absolutely right with that one hour presentation on Section 1 0 9. Oh my God. You were right. Yeah. God, you've got to get to Malcolm. Is

that, is that Hugh?

Yes.

Yeah, I've had a good chat. Ive got an email from you. Yeah, yeah.

I've had a good chat with you a few times about 1 0 9 into digital id. I, I, I got in, I put, put a case to him about the digital id man. Digital IDs

got no head of power to even be creative. I understood

that and I gave him the reasoning why and he said, beautiful. So, but, so I just, just, I'll give you a little clarity on that before I, before I make move on.

The problem that we're seeing is that they know exactly like Jackie said, that the finances aren't there. What he said to me, Hugh, was he said, yes, you, you are right. The Queensland Rail 2015 case would stand because of the, the complexities of the com corporations act the same way that the digital ID is getting mandated in state.

But he said you would have to lose your job because it fair work would say it's not un, it's not that much of an ask to put Archie to put some digital stuff in there. You'd have to lose your job as a coal miner. This is you, you'd have to lose your coal and, and then come back and, and, and appeal that.

And he said, how many people do you know? Don't, that would be willing to lose their job risk, losing their job in the mind for the sake of the digital id. And I said, well, that's what the union used to be for, right? And that's what, now we're just on our own out there segregated all the time. And so people are just, but it's voluntary.

It is voluntary. I know they, they're signing up for that sort of stuff. So that's why it's so important that when we do get a case like Beverly, Dr. Beverly's to the high court, that the funding goes to them to make sure that they can stay in the fight, particularly at their age, right? Because again, if they get knocked off tomorrow, if they give up tomorrow, if they run outta money tomorrow, everything below them cascades into failure.

So we can't keep letting this single people stand at the front 'cause it's so easy for them to shoot at one. It's a lot harder if we stand arm, arm in arm, side by side, um, when they go to court.

Look, we're all linking up as well. So if anyone's interested in, in being a plaintiff in Cases against the Commonwealth, the Commonwealth government, there's a case written for them as well.

They are being charged with using the funding, uh, to buy the vaccines through the civil conscription that the State Health Acts implemented absolutely prohibited by the Constitution. And then, uh, we've got the, the one against the, uh, treaty, the treaty power. You cannot treaty with a private organization.

And the, the legislative, uh, powers of the Commonwealth and states are indivisible. They are not allowed to write recommendations from a foreign corporation into our legislation. It equates to treason. We've got a lot of stuff. We've got cases written. Send anyone who's interested contact, uh, send an email to Daryl at Know Your Rights.

Can I remember that email info at Know Your Rights? Ooh, I'll have to look it up again. Damn, Jody, do you remember its Know Your Rights Email,

send the links for the Give, send, go. And that one as well as you. Thank you Jackie. And also for The Covenant. And Jody, uh, if you could please resend through a link to the flyer and what we'd like to do, what we'd love to be able to do and put a fun spin on it as well is, uh, cross over every now and then to the rally and see how it's going.

Yeah, that's what I, I, I reached out to quite a few people, including the White Rabbit and say, um, it came off the, the old video, the Warriors, if you, you remember the Warriors, um, the old, um, warriors, the LA Gangs, I think they were when they all sort of tried to, they tried to get the gangs together back in the day.

Um. It's a pointless story then, isn't it?

I'll save

you, I'll save, I'll save Trying to explain something that won't make sense. But, um, that's, that's, that's where it came together. There was a, there's the, um, the old days. There's a movie back in the days where one man tried to get all of the gangs together, um, because the, you know, they were trying to live their way and the police were giving 'em a hard time and they, they spent more time fighting each other in the movie than they did against the actual people they didn't like.

And so they tried to get 'em all together and, and come, come together to say, we've had enough. Right. And he makes this big grand speech. Now he gets knocked off at the top. And it's just exactly my point is that while ever, whenever people stand, you know, stand highest, they're so easy to get knocked off.

Right. So we just need, if we stand together, it's nearly impossible to work it. So I've been running the ant on the Grasshopper. Um, you know, the, um, the famous line from, from Bugs Life where, you know, that, where, where the Grasshopper says if, if those ants work it out, if one, if we let one ant stand up against us than they all might stand up against us.

It's not about the food, it's about the power, right? Because if those ants realize that we out, they outnumber us 100,000 to one, there goes our way of life. And that's what's, you know, that's what I've been running with that one to say. I don't wanna be in Let's, let's go, let's, um, perfect

analogy. Johnny, you, you haven't had a chance to get a word in edge ways, mate.

Oh, well, look Woody, it's, uh, it's obviously gonna be a great event. I, I think the analogy that you, you used earlier about the, uh, bash. I think it's a good one. Uh, um, and you know, I think any of these, uh, you know, the kidney rally bash any of those things, I mean, the variety bash, I mean, they've all been successful in the past.

I mean, uh, you know, Woody from your, uh, ventures in, into Australia, into the depths of regional Australia, that, uh, there's a lot of good conversations to be had, uh, with people that aren't aware of what's going on. And, uh, and if we can do that in a sensible. Um, you know, compassionate way, uh, by, by holding these sorts of events.

Well, you know, I think that that's a, a, a good way of looking at it. I mean, if it achieves nothing, nothing else, and, you know, it's an opportunity to at least have a conversation with the petrol station owner or, or, uh, or, or, or someone at a food outlet on the way through. Uh, you know, these conversations can, you know, ha have an impact on people and, uh, you know, and they might just click.

Um, that's, that's what it's about. Um, you know, as for the union stuff, you know, the unions have, you know, they've been a disgrace. I mean, if they're not, uh, paid up members of the search foundation, all these unions, uh, well, they might as well might as well be. I mean, they, they're nothing but, uh, elbows, airbags.

Uh,

I, I, um, I must admit, uh, John said that, uh, not John. Um, he said that there might have been, you know, a bit of a sour taste in the mouth of the shortening of the, uh, freedom Unit United Cairns Canberra Parade. Uh, it turns out to be the F-U-C-C-P, which is a bit on the edge for some. That's right. I'm a 22 year underground coal miner.

I'm, I'm the blood, sweat and tears of the country born out in bar called, and that's just me. I understand that. Um, 'cause I do remember when John through was his spirit, Jody. I love it. I know, I know. Look, it's me. It's you, me. Hundred percent, hundred percent on. Oh, nothing. You know, I, I'm not changing for anyone.

I'm trying to do my best for me family. Um, and, and for the memory of the legend of the man who was my granddad that left this country with a gun and a nap sack to go over and stand, um, you know, in a trench, um, getting bullets fired at him so that I can come here and talk about the government in the way that I am on a mic with a microphone and a camera.

And that is about to be taken off. And I don't wanna have to repeat what he did for this country to keep it free. Let's make the most of it. But, um,

yeah, I, I've gotta, I've gotta admit, I'd much rather have gone to war, uh, like my old man did than than fight this battle we've been in lately. I've gotta tell you, there's too much friendly fire, Jody.

We talked about that today. There's too many people shooting their own men in the back, and, uh, you know, that's sort of, rubbish has got to stop. It's, there's no need for any of it. There's no need for any of it. Well, look, we are fighting, we are fighting the battle the way that, that we, we've been gifted to fight it with whatever resources we've got.

Jackie's doing it her way. You are doing it your way. As long as we're all aiming at the same target, uh, let's keep doing what we're doing and try and come together wherever we can. I mean, it's really, really important. So, um,

yeah,

I just, I just wanna thank you both for coming on. Um, thank you. Thank you for the spirited discussion this morning.

Jody.

Thank you for having it. And thank you for staying on there the entire time to the point where we still had this video so that the people who count the most that are gonna watch this. Understand what it is that we're trying to do.

Exactly right. So we'll, uh, we'll definitely keep in touch with both of you and we want to stay on track with the rally, uh, to see how it's going.

We want to hear some funny stories. We want to have a few laughs with some of the people. We want to hear the good stuff. Remember, it's about hugs and peace and compassion and getting our message heard. That's the main thing. And give like crazy to, uh, to Dr. Beverly's appeal. Look, this is a really big one.

Please give and sign that covenant it. We've gotta give everything a chance to succeed. So Johnny, and I'll be back after the break, but uh, it's great to have you on Jackie as always. And Jody, good on you mate. And we'll see you guys again very soon I guess, as it all kicks off. Yep. Appreciate your time very

much.

Alright guys. And John. John, Jody.

Thank you. Bye. Thanks.

See you.

Thanks.

Well, Jody, at least now we know what's going on with the, uh, with the, um. The convoy to, uh, from Cannes to Canberra?

Yeah. Uh, oh. Look. Or credit to them. I think these things, uh, uh, are admirable. Uh, everyone just doing their own thing and, you know, we're happy to support what's, what's, uh, what's out and about.

Um, I, I, I, I think it'll, I think it's good.

I think they're, I think they're gonna have a hoo actually, uh, yeah. On the road. It sounds like a lot of fun. Um, and the spirit seems to be, the spirit seems to be good about it all. And, um, yeah. Well, actually,

when you mentioned that bash thing, actually hoodie, I actually thought, uh, my mind was ticking over a little bit sometimes as it does.

And I, I thought it wouldn't be a bad option to have a, uh, um, you know, a a a a bash for the, uh, for the vaccine injured. Um,

yeah. Crazy

for the vaccine injured. Mm-hmm. Yeah, that'd be good. Yeah, that would be really good. You know, we could maybe go, uh, out to Broken Hill or somewhere

Yeah. To

Birdsville. At to Birdsville or something.

Yeah. Yeah. I might get arrested if I go to Birdsville though, because when I was a kid, I stole the bell from the Birdsville pub, the dinner bell.

You wanted di dinner a bit early, did you?

No, I do. They never ever used it. It was covered in cobwebs and it was hanging up at the wall and I was stuck there in a dust storm for seven nights and in boredom One night I got up and unscrewed it off the wall and stuck it in me plane and I brought it home and I've been meaning to take it back and give it back to him.

In fact, we were gonna do a fundraiser called The Return of the Bell to the Birdsville Hotel. This is about eight years ago. I mate of mine, Aquinas, we thought, let's do it. We'll all, we'll do a flying and do the return of the bell to the Birdsville Hotel and that, and we were gonna have a mock trial and I'd get locked up in the police lock up and just do it as a fundraiser for the flying doctor.

Wow. But uh, yeah, that'd be fun. Uh, Justin, if you're watching, that's something we might be still be able to do. Only do it for another good course. Um, Johnny look, um. Uh, that, that, uh, there's been a few, a few stupid things said, uh, that I just want to talk about, uh, allegations that we turned up at Epic in a silver Alpha Romeo sports car.

Do you want to clear that up?

Oh, dear idea. Yeah. What a lot of rubbish. Uh, that was a, uh, a car that was, uh, that was purchased by me, uh, for my daughter, uh, from a fellow Freedom fighter, um, who, who had a car dealership. Uh, and he brought it across on the, uh, on the, on the truck actually, that, that ended up, um.

Under the Passover Parliament house blocking the freeway. So it on the back of the float,

I remember it

was on the back of the float. And, uh, it's not an alpha, a may, it's a pergio, it's a, uh, it was a less than $10,000 car. So,

but the stupid thing is, Johnny, if we'd rolled up in a hundred thousand dollars Land Cruiser, which wasn't ours anyway, that's, we, we got a lift if we turn up in a hundred thousand dollars land cruise.

And nobody did say anything, but I mean, this is, this is the nonsense. Yeah. That just divides everybody. It's absolute bs The fact that there were wads of cash on the table in Craig Kelly's office. Absolute bs They were, they were handouts, they were flyers made to look like million dollar bills. That's sort of rubbish.

Uh, what are, what other things were said? Oh, we didn't stay at Epic. Yeah, we didn't stay on camp. We wanted to Luke the drifter. Had a camp, beautiful camp set up. He had a tent for us, a tent for me, and a tent for you. But we couldn't stay there because we just, we were just so mobbed. All anybody involved in it was mobbed.

And I remember, uh, at one stage we went to the camp, to Luke's camp, and we were chatting with all these people, and I had to go to the toilet because I've got a, an enlarged prostate, and I couldn't move a meter in half an hour. And I ended up wetting myself. I couldn't get to the toilet. It was just impossible.

So, you know, and we, we were always saying we wish we could be at the camp. And often we'd go back a bit later at night and we'd sit around Luke's campfire and enjoy it. You know, the people that turned up at State at Epic had the best time. It was just a beautiful time.

Well, we had a good time there with 'em.

Uh, but, uh, you know, ultimately the, that venue ended up being restricted on the amount of numbers that could go in there as well. And, and so. Uh, you know, what were you gonna do? Deny? How many people did we run into hoodie that, that had, that had driven down to Epic, uh, in their car with maybe their kids?

And it was the last, uh, harass for them. I mean, it was the last, you know, 50 bucks in their wallet that they'd put into fuel to get down there. I mean, where were they gonna go?

Yeah, right. Exactly. Right. Now, look, you, you and I did not organize any rallies. We were asked to speak at rallies. We are not rally organizers.

Uh, Christian Mack did a great job. Mac did an awesome job organizing the rallies. He got all the sound systems and the stages organized. We just get invited to the rallies. Um, so, you know, we're not organizers. And I've gotta say this, at no stage, at no stage did I tell everyone to leave and go, leave Canberra.

It was not me. Now if anyone can find a video where I'm telling everyone to leave Canberra, then I'd like to see it because that was not me. And I'll tell you why it was not me. I thought it was a stupid idea, to be honest with you. And I didn't think any of us had the right to say to anybody to go home.

I had to go home in a couple of days anyway, to get my leg finally attended to, with a melanoma on it. People had horses to feed and, and other things to attend to. It wasn't for anybody to, to point out, you know, to tell you to go home and come back. We said we, you and I said we were gonna be back on budget night.

We were definitely committing to come back on budget night. And you can't, you can't pay for a 10 or $20,000 sound stage to be able to reach so many people every single day. It just, the funding's just not there.

So. Well, and people have gotta remember too huy that I, I mean, they were shutting down, uh, that venue, uh, because of the Canberra show.

Uh, so I. I mean, that, that was out of our control. I mean, uh, I I, if I suppose if, if we got to the point where, uh, where people were refusing to actually leave Epic, well that might have, uh, you know, ended up being a, a completely different event, uh, and not remembered in the way that it is, uh, as a symbolic, uh, event.

You know, like when you compare that, I looked at a photo the other day of Woodstock, uh, but you know, with the crowd and without the crowd now, and I tell the, the venue, our venue looks bigger. That'd be

Yeah, exactly, exactly. It does. And, and it did look bigger. And re regardless of how many were edge on the vibe was just beautiful.

You know, when, when you and I marched that day on the 12th up behind the, uh, fireies and that, um, when we look back, how many times did we look back at the people behind us? We were up near the lead. Hmm. And it was just phenomenal. It just stretched forever. I mean, it'll go down in our history. You know, when people say, where were you on the 12th of February, 2022?

We'll know exactly where we were. It was just amazing. But look, I wanna say this to people as well. Um, don't, there, there, there's this phrase going around, self-appointed leaders of the Freedom Movement for a start, I don't, I have no idea what the Freedom Movement is. I don't know how to join it. I dunno what it's about.

In fact, what is purported to be the freedom Movement is anything but free. Because all we do is attack each other. Um, and, uh, and, and, well, I, I don't say we attack each other because I don't play a part in that. Neither do you. But we seem to get hit a fair bit. I mean, that's just, that's just a nonsense thing to do.

It's a nonsense thing to do. We, we don't bad mouth any, we get attacked, but we don't return fire because it just, it just all, it doesn't makes things worse. It makes things worse. And it's really, really important everybody that you, um, that you follow your heart, you know, John and I can say things, we can say, oh, we're gonna be at such and such a place at such and such a time, and if you turn up, that's good.

And if you don't, that's, that's up to you. But you've gotta make your own decisions. Don't go picking leaders on social media. You know, it just, I, I've said, I've said a hundred times, John, that if, if I wake up tomorrow and, and I, all my social media platforms have been canceled, I wouldn't care less. I couldn't care less.

Yeah. Um, you know, I, you know, I dunno, I dunno what else you've got to say there, mate.

No. Well, look, uh, you know, and, and, and a lot of this stuff winds up on that, uh, that, what do you call it? Uh, crazy Cooker, cooker program. What is it?

Um,

well, if you can't have a laugh at yourself, Craig, there is some funny stuff on there, isn't there?

Yeah. Look, there there is, there really is some funny stuff on there. And, but the thing is, Johnny, um, they're all going off about, uh, people like us being cooked, but they're just as cooked, if not more. Uh, because you look at some of the comments and some of the, the hours they put into it, they put so much time into it.

And, um, there's several of these sites, apparently, they put so much time into it and they, they, they get so hot under the collar about it all. Um, so I think we're all cooked. You know, I think anybody in this country at the moment, the way things have gone the last four years, we're all flam and cooked. And the sooner we take ourselves outta the oven, the better.

Yep. So, you know, to all those people, you know, no, no heart feelings. We're not gonna get anywhere doing all that sort of stuff. So, um, but follow your heart. What, no matter what you do, whether you agree or not, just follow your heart and, um. What else there was. I was, there was some other things raised. Look, something about, uh, anyway, look, it's not even worth talking about.

Here's the thing I want to say. Uh, I, I get, uh, I get bagged a off for talking about God. Well, I've gotta tell you, that's gonna ramp up, uh, because I, I've done a lot of research in the last few months and I've had a good talk with Trevor Loudon, uh, on the side, and we've been discussing a whole bunch of stuff.

John the country is definitely under a Marxist communist takeover. There's no doubt about that. Now, the reason I'm gonna ramp up the God rhetoric and the faith rhetoric is because the greatest enemy to Marxism and communism is Christianity the greatest enemy. And we've only gotta look to see the way God's been canceled and the Bible's been canceled.

And look at the degradation in, in our, uh, in our, uh, in our, in our standing in this country. Look at how we've, all our standards have gone down. You know, there's so much. There's so much evil in this country and in the world, and we've gotta come back to a standard. And for me, it's Christ. And I'll always stand by that.

I love Jesus Christ. And I'll stand by that till the day I die. I will never, uh, wittingly or knowingly break the law of God. And I'll always hold the law of God, uh, above the, the Commonwealth Constitution. And, uh, and I love God and I love my wife and kids. And that's how I stand. That's how I stand. So if you don't like it, don't watch.

If you don't like it, turn off before that. Um, I'm involved in a lot of Christian stuff. You know, I'm, I'm interviewed, I was interviewed from New York the other day by, uh, advent Media Connect and that it was our, our 40 interview. And it was really a really good interview. It was based on what's been going on in Australia and, um, and, and, you know, the faith angle of all of this and how the churches let everyone down, which they did.

So that's me. Um. If you don't like it, don't watch it. Uh, if you don't like what John and I did at Canberra, um, and you blame club grubby or whatever, don't watch it. If you don't like the guests we put up at Club grubby, don't watch it. It's simple. Don't do it to yourself. What can we say? And for those of you who do watch it, we love you.

And for those of you who don't watch it, we love you too. I mean, I dunno, I dunno where, where else you go with that stuff. But anyway, uh, you know, sometimes we've gotta restate this. Um, look, we do club grubby, uh, we get involved in other things. Uh, there's gonna be, uh, a lot of people talking about the, um, the independent media summit, you know, another, you know,

go

on.

Oh, I think that's a good opportunity for people to, uh, to, to come and have a look at what's, what's on offer. Um. Meet the people, listen to them, talk to them, uh, and see what, what options there are. Because the reality is, you, you, you can't get your, your, your, uh, your truth. You can't actually find out what's going on by watching any of the mainstream media television stations.

You can't,

and you and I are down to speak at that event. And I'll tell you, John, we can say, we can say without upsetting the apple cart, that there is a fairly radical move by some very influential people around media to set up what may become a freedom fee free to air, uh, TV station where Club grubby will be seen and the, you know, the Daily Australian and others will be seen talking about the Daily Australian.

Um, I've been watching that a fair bit, you know, with Jason Oborne and um, and Nicola Charles, and that is a really good quality production. Those guys are really churning out some good stuff, you know, so stick with us. We're all working together, and that that whole idea of that media summit is to bring people together.

To network and there's people coming from all over the world to that John, who are gonna be able to help us all work out where we fit and how best to, um, how best to conduct ourselves and put our material out there because we are, we are getting greater viewerships in the mainstream media. Uh, ABC's canceled q and a, uh, tens cancel project.

I mean, that's happening because they're wounded, because a lot of people are watching us and they're watching the Daily Wire and, and Michael and, and Tofa field and you know, these are the things that are making the difference. So let's get together, let's get behind these things and stop bagging them and, uh, and see what we can make work because, uh, we do have a voice, but we need more people to wake up.

Definitely. Johnny, you've often been heard to say, you just couldn't make this stuff up. You couldn't make this stuff up. I better pray. I forgot to pray. And here I'm talking about, I'm gonna bring God into it a bit more.

Lord,

father in heaven. I just want to thank you, father God, for the beautiful people at Hoodies Heroes. Um, they've been absolutely terrific the last few days. Um, they're beautiful group. They support, they support those people involved in it with a beautiful heart to serve. They're trying to keep the local community groups happy and ticking along.

They're checking and making sure everyone's okay. It's just a beautiful group. I wanna thank you, father God for, um, for club grubby and the people who watch it. And thank you for the dialogue that we're able to have and, and to see where that takes us. Father God, we, we just wanna stand in the light of truth.

So, Lord, we do the things we do on this program and the other initiatives we're all involved in. Please lead us. Please lead us with compassion. Please lead us with honesty and integrity, and help us to bring this thing to an end, because we ask this in Jesus' Holy name. Amen. Amen. State of the trees, everyone, and, uh.

Be, uh, you'll be watching this probably Tuesday and then Wednesday we've got, uh, Dr. Miley Rin. Uh, we're gonna be talking to Miley Rin about the horrible way she's being treated by Ara John.

Absolute disgrace. I don't want more you can say about that.

And then ladies and gentlemen, prepare yourself for what I think is the interview of the century, um, with Dr.

Astrid, who was working for the World Health Organization, a whistleblower. Um, John has seen her story and it's breathtaking, and she's gonna be sharing that with us here on Club Grubby with an exclusive. So it's gonna be another great week in club grubby. Um, keep loving yourselves, keep loving your country, and if you love it, stand up for it.

Go for a drive. Get yourself onto that rally. Support Jackie support, um, support Dr. Beverly. And, uh, let's get this show on the road.

And we'll also have Katie Asby Coppins on that, on that, uh. Interview as well so that she can explain to everyone in no nonsense terms about what, what's going on with this, uh, IHR and the pandemic agreements and all that sort of stuff because it's, it's bloody confusingly.

It

is, it is, mate. And, and on behalf of all our viewers to want to thank you for the ma the amazing work you're doing with the a CA and all the other stuff you're do doing, John, you're liaising with people like Chris Smith and ine and, uh, you're always, you're always on the phone to somebody trying to organize something, to, to bring truth to light.

So I don't think you appreciated enough. Oh, mate. And, uh, we love it. Wonderful. Thanks. Thanks, thanks to Stuart Robertson for getting all this stuff out there. And, uh, thanks to Suzy, Suzie, uh, Suzie Burns for, uh, uh, lining up all our guests and arranging all the times and keeping us on track. Um, it's a great,

actually, we've, we've still gotta speak to, um, uh, Tanya Danno, uh, has, um, uh, spoken with Russell Broadband and, um, he's gonna come on, uh, as well.

So we just gotta, uh, get together a time for, uh, Russell. So that'll be another great interview as well post-election to find out what Russell's up to.

Exactly. And, uh, we had the pleasure of having Malcolm Robertson, his wife here on the weekend. And I can say that because he wanted me to, he wanted to interview me for his podcast, which he did in this room that I'm sitting in now.

And it was great to have Senator Malcolm Roberts here and, uh, man, he's an impressive individual. He really is. He's a very impressive individual. And, uh, anyway, we'll see where that goes. So it's all in all, it's ended up being a good day after a shaky start. Exactly. All right. God bless you all. Thanks for sticking with us and we'll see you next time on Co gru.

Bye for now.
